

Meeting Clients Where They Are

Providing High-Quality Substance Use & Behavioral Health Treatment.

Substance Use Treatment

As Maui's only licensed residential substance use treatment provider, Aloha House provides a continuum of care for all aspects of recovery, from initial outreach through outpatient services.

Aloha House serves over 5,000 people each year, providing crisis outreach and recovery, medically monitored detox, substance use treatment, counseling, therapy, outpatient treatment, and sober living homes.

These programs make it possible for people to change their lives. Participants re-discover their strengths, learn from their experiences and create new pathways forward in health and wellness. Drugs and alcohol affect people differently, and staff work with each person to create their own individualized treatment plan.

Addiction is a disease that impacts the mind, body, spirit, and threatens relationships among family members and friends. When we help participants to end their abuse or dependence on drugs or alcohol, we also help them face a myriad of challenges related to their personal health, relationships, home and work life.

Mental Health Services

Services are available to help children and individuals with emotional and behavioral impairments achieve optimal functioning in their schools, homes and community.

Aloha House's goal is to help people live healthy, happy lives. Therapists, psychologists, psychiatrists, social workers and other professionals are available to help people deal with issues related to family, work, relationships, depression, anxiety, and other concerns.

Services are available in the home, the community, via telehealth, and in our offices. Some people may only need short-term counseling, while others need to see someone for a longer period of time.

Everyone is unique, and staff work with each person to create their own individualized treatment plan.

Get Help

Our staff members are passionate about helping people achieve lasting recovery from both substance use and behavioral health issues. If you or someone you know needs help, please call 808-579-8414 or email Services@aloha-house.org
